I am already on top of this.

Dan - relax you have a few more days away from the office

I am digging through old emails. If you have already forwarded this to
the right parties great. Otherwise contact Raffi and Eric to get this
to our lawyers. I believe that Alan Chapell is already touching base
with them.

Dan,

I have a video of Norton not letting us run on a machine. I could
not replicate the same with McAfee. Will try to get that too. The
video for Norton is in S:\Database\Video\Norton with HPICT.

I got 2 videos. With and without Norton being active.

thanks,
Sashish

Daniel Doman wrote:

Where are we on this? Since it affects our uninstall and that affects
everything this is really really important.

I am not going to be in small touch much at all in the next 72 hours.
Everyone PLEASE follow up on this.

Can.

If you could give us either (1) a written, technical explanation of exactly what is happening (i.e., identify the specific processes that are being disrupted) or (2) give us any kind of screen shot, that would be very helpful.

Thanks,

---END---

Norton and McAfee are blocking our animals from working.

The user

This is REALLY bad. Norton and McAfee are now preventing

This is urgent and immediate!
