I have noticed popup windows appearing that I have traced back to your 'service' and have attempted to uninstall according to the scant detail on your [www.offeroptimizer.com](http://www.offeroptimizer.com) web page. I do not recall reading in any of the agreements for software I have installed recently that your adware would be installed. I have gone through and uninstalled each of the programs I have installed since I noticed your advertisements showing up on my computer and yet I still see an offeroptimizer window appearing in my task bar.

Having followed your instructions, and having followed the uninstall instructions for all my software, and still being unable to remove the ads from your 'service', please provide me with:

Complete instructions for removing your ads from my system, and,  
A list of the companies that use your software so that I may properly identify the software I must uninstall.

Anticipating your cooperation

You have somehow placed a popup on my windows xp. I can not find it in in my msconfig. How do I delete it from my computer.

Thanks,

John

How do I get your crap off of my computer? Your website says to go get an ad blocker, but what you dont seem to realize is that you were the ones who aggressively placed software on my computer. Tell me how to get rid of it.

Thank you  
Jim

Hi,

I have the google pop-up blocker and your pop-ups are the only ones that comes out !

How do I get rid of your pop-ups ?

Where do they come from ?

Thank you,

Nathan Hazout
