Re: **MyITtech / Enigma Software Group**

Dear Mr. [REDACTED]:

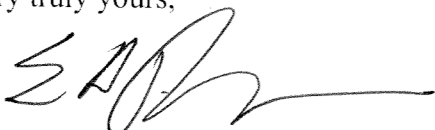

Thank you for your letter of February 18, 2013, and thank you for taking down the YouTube video referenced in our prior correspondence.

As we wrote in our prior correspondence, Enigma Software Group (ESG) has no objection to legitimate reviews, and you are entitled to like or dislike its products. We will examine any future reviews you post of ESG products for compliance with the law governing false advertising, trade libel, and unfair competition.

Virtually every statement of law in your February 18 letter was incorrect or irrelevant to the circumstances. You may wish to consult with a lawyer if you hope to avoid legal disputes in the future (particularly because any law suit would likely be brought against both you and your parents because you are a minor).

We are hopeful that this is the last communication we will need to have with you. We wish you the best of luck with your software company.

Very truly yours,

Eric A. Prager
